200m Long Rail Transport Train – 12-Wagon Set

200m Long Rail Transport Train – 12-Wagon Set

Complete 12-wagon long rail transport train manufactured in 2008, designed to transport up to 20 rails of 200 metres length in a two-tier arrangement.

The system includes purpose-built rail handling and stacking equipment, sliding loading and unloading equipment, electrical control panels, rail holders, an onboard generator, and a 1-ton crane and winch. It is designed to assist with loading and unloading rails at the work site.

Originally designed for 1,067 mm gauge and currently set up for operation at 1,000 mm gauge. Conversion to 1,435 mm standard gauge is not possible due to bogie frame and axle limitations.

SPECIFICATIONS

Specification	Details
General & Dimensions	
Model	200m Long Rail Transport Train – 12-Wagon Set
Year Manufactured	2008
Machine Type	Long rail transport train
Condition	Used (Inspection Recommended)
