Gregg Europe Phosphate Hopper Wagons x 142

Available for sale are 142 Gregg Europe hopper wagons, designed for the transport of phosphate and configured for operation at speeds of up to 100 km/h.

The wagons feature pneumatically operated self-discharging doors together with a manually operated roof door. They are fitted with self-steering bogies and an air braking system incorporating an automatic brake regulator and empty/load device.

Each wagon has a nominal 30 m³ hopper capacity, with an empty weight of approximately 19.7 tonnes and a documented payload of 42 tonnes.

Quantity available: 142 wagons.

Equipment inspection is available by arrangement.
