Set of 22-tonne Electromechanical Railway Vehicle Lifting Jacks

Heavy-duty electric lifting jacks designed for lifting locomotives, passenger cars, wagons and other railway vehicles during workshop maintenance.

Each jack has a Safe Working Load of 22 tonnes and is fitted with an electric motor, gearbox, vertical screw-lifting mechanism, local control panel and warning beacon.

Features

- 22-tonne Safe Working Load per jack
- Electric screw-lifting system
- Individual motor and gearbox
- Local control panel on each jack
- Flexible electrical and control cabling
- Suitable for bogie changes, wheelset work, inspections and general rolling-stock maintenance
